Applicant has elected claims 1-13 and 19-21 in response to the restriction requirement for prosecution on the merits. The restriction is made final. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1,2, 4,5,6,7,8,9,10,11,12,13,20, 21 rejected under 35 U.S.C. 102(b) as being anticipated by Hinman 733963. Hinman teaches an umbrella storage apparatus comprising an apparatus main body 1, supporting member 15, umbrella retaining locks Figure 3.

Claims 1,2, 4, 5, 6, 7, 8, 9, 10, 11, 12, 13, 20, 21 are rejected under 35 U.S.C. 102(b) as being anticipated by Grimes 532953. Grimes teaches an umbrella storage apparatus comprising an apparatus main body Figure 1, supporting member 14 and umbrella retaining locks 17.

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

Claim 3, 19 rejected under 35 U.S.C. 103(a) as being unpatentable over Grimes in view of Ming 6598753. Grimes teaches the device claimed absent the rotating

support member. Ming teaches a rotating supporting part 30 for the purpose of foldability. To provide the Grimes supporting portions with rotating means as taught by Ming for the purpose of foldability would have been obvious for one having ordinary skill in the art at the time of the invention.

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Other similar holders for elongated objects are illustrated by Perry 636450; Leventry 1454900; Davenport 1291430; Davidson 553109 and Bocker 1231993.
